

The Benefits of Hydrotherapy

Air and water jets are known to ease the pain of common ailments such as:

- Back Pain
- Muscle Pain
- Diabetes & Circulatory Diseases
- Arthritis & Rheumatism
- Other Physical Ailments

Warm water helps to open up blood vessels, healing tissues, lessening aches and pains, while stimulating the immune system. Cold water therapy reduces swelling and helps to heal sprains. Air bubbles provide a gentle, caressing, therapeutic massage. This increases blood circulation, relieving sore muscles, joint pain and inflammation. It also aids in releasing endorphins, the body's natural painkiller. Simply put, a walk-in bathtub soothes your aches and pains and delivers the comfort you seek.

5 Standard Therapies on your Alexis Walk-in Bathtub

Hydrotherapy Jet Massage

A total of 10 water jets massage the body, eliminating pain-causing lactic acid in the muscles, while helping to relieve body aches and inflammation.

Air Bubble Therapy

18 air spa jets release thousands of tiny bubbles creating a gentle caressing massage, improving circulation. Warm air bubbles increase buoyancy, making tired muscles weightless and relieving tired joints.

Color Chromotherapy

The use of colored lights in water improves one's mood and enhances relaxation. Chromotherapy is used for stress, insomnia and seasonal affective disorder.

Aromatherapy

A selection of scents are available which release neurochemicals in the brain that result in relaxation or invigoration, depending upon the essential oil chosen.

Ozone Therapy & Purification

Ozone purifies the water and aids in healing skin conditions. Ozone enhances oxygen intake as well. This low density ozone has an oxidizing effect that actually disinfects the water.

Walk-in Bathtub Series

These products meet stringent UPC plumbing code requirements

International Association of Plumbing and Mechanical Officials

Warranty

We offer a 5-year warranty on the tub shell, hinge, door and seal and a 2-year warranty on all other walk-in components. Speak with your representative to learn more.

L.A. 3252W

Liquid Accents

Worry-free, easy access

The Liquid Accents 3252W is extremely roomy, luxury-sized, and packed with specialty features. The extra-wide 34½" outward-swinging door is the highlight of this slide-in or transfer seat walk-in tub design. The full seat access from the exterior of the tub was specifically engineered for wheelchair users, seniors with limited mobility and those users with special needs.

The 3252W comes highly recommended by in-home and long-term health care professionals. Special attention was paid to the door and locking mechanism to ensure a worry-free, leak-proof door seal. The 3252W is also an excellent choice for bathers who may have difficulty fitting through smaller tub doorways.

Specifications:

31^{3/4}" W x 51^{1/2}" L x 40^{1/4}" H	17" H x 23" W	195 lbs	34^{1/2}" (at top)

Accessible, compact and functional

The Liquid Accents 3052W represents an ambitious balance of accessibility, compactness, and functionality. The 30" wide, outward-swinging door allows near full front access to the seat making transfers from a wheelchair simpler, while still being able to open the door fully in a narrow, 60" wide bathroom space.

The 3052W comes highly recommended by in-home healthcare professionals for its simplicity when assisting wheelchair users, seniors with limited mobility and those individuals with special needs. Special attention was paid to the door and locking mechanism to ensure a worry-free, leak-proof door seal.

L.A. 3060

Liquid Accents

Comfortable and extra-wide

The Liquid Accents 3060 has been a staple in the walk-in tub industry for over three decades. Its 30" width and full 60" length perfectly fit into most standard tub or shower spaces, while its extra-wide 20½" seat and extended well provide a comfortable bathing experience and ample room to stretch your legs. Due to its full 60" length, the 3060 does not come with a matching extension kit.

When selecting the 3060, it is important to consider the turning radius and other maneuverability factors to ensure it can be easily positioned in the bathing space and subsequently installed.

Specifications:

30" W x 60" L x 36" H	17" H x 20½" W	155 lbs	18" (at top)

Compact and luxurious

The Liquid Accents 3052 provides a luxury spa experience from the comfort of your own home. Boasting a 40" high tub basin, the 3052 allows for deeper upper body water immersion while maintaining a compact footprint for almost any bathtub or shower space. Its overall size and 20½" seat make the 3052 the perfect size for narrow, 60" bathrooms. The 3052 remains one of Liquid Accents top performers.

Specifications:

Unique, space saving design

The Liquid Accents 2848 presents an elegant, safe and rewarding spa experience within a unique, space-saving design. The 2848's compact width and length allows for easy maneuverability through narrow doorways and hallways, fitting perfectly in tight spaces. This is the tub of choice for installation in a 48" shower stall.

This rare tub size enables even mobile homeowners and those with a three-quarter bath to recapture their independence. The curved, "knee-saver" door design makes closing the door much simpler from a seated position.

Specifications:

28" W x 47¹/₂" L x 40" H	17" H x 20" W	144 lbs	19" (at top)
